

“True Education throws more Light than Heat:

Ignited Mind, not Heated Mind, is shaped, difficult to Beat”

Greetings

I am joyous to be in your midst as Principal, Mount Litera Zee School, Ratlam, since January 01, 2019.

However, along with the happiness is the grave responsibility of molding and shaping students by equipping them with good education, aligned with the ethos of the institution. The MLZS alumnus must reflect and use the virtues of Courage, Confidence, Competence, Conviction and Clarity when facing the myriad trials, tribulations, tests and troubles of living Strong Character must be displayed.

The institution is among the reputed ones and sought after for obtaining quality education aided by experienced and well trained teachers and an infrastructure that is state-of-the- art.

I am fortunate to be supported by a team of talented skilful, dedicated and experienced teachers, who will help me realize the goals and objectives.

I believe that learning has to be multi-faceted and holistic. Physical fitness of students is equally important. The school has good facilities and equipments to cater to this aspect.

We live in the Digital Age where technology matters. Imparting education is facilitated by the internet, which enables the students to augment knowledge and update it, keeping pace with the developments and changes happening at a brisk pace. Students need to stay even in today’s fierce competition, to have a cutting edge, so to say. I would like to state that the institution is geared towards this requirement.

Parents have been supporting and strengthening the MLZS, which I appreciate and acknowledge. This is to further assure you that students would be given the best in education. They would both enrich and enjoy themselves when learning, I strive to create a conducive climate. Your involvement in your child’s progress is vital and significant. I believe that the shaping of the student is a Joint venture of parents and teachers.

MLZS Ratlam is the crucible of child’s creativity, interest, passion, aptitude and inclination, which would be fostered and nurtured, with care and sincerity.

Together we can. Together we will.

Extending to you warm regards,

Educationally Yours

Vijaya Ravi.
